

# NATIVE WOODLAND SCHEME

# NATIVE PROVENANCES

# NONE-SO-HARDY

We have been collecting our own seed for the Native Woodland Scheme since 2006. The most important species of this scheme is native Irish Oak.

The Native Woodlands Scheme has the potential to significantly reverse the decline of Ireland's native woodlands and to secure a healthy, vibrant resource for future generations.

It is very rewarding seeing plants going out the gate grown from seed which have been nurtured to this stage right from their initial stage as fruit on the tree.

Oak

Rowan

Hazel

Spindle

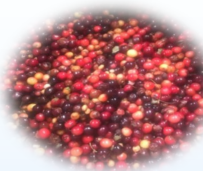

Crab apple

Blackthorn

Guelder Rose

Wild Cherry

Holly

## Price List 2022 - 2023

*As the largest private nursery in Ireland we take the long view, grow quality forests. The success story of None-So-Hardy doesn't end at the nursery gate, it begins in the new forests that our customers establish each year. We are proud to play our part in creating a forest nursery culture in Ireland.*

Pinus Sylvestris <b>Scots Pine</b>	2+1	€419.00
Pseudotsuga Taxifolia <b>Douglas Fir</b>	2+1	€475.00

Trees still fully dormant and in peak condition stored in the cold store ready for planting later in the season

In 1994 we erected a cold store at the Shillelagh base which has the capacity to hold 3 million plants. In 2002 this was extended and can now hold 8 million plants. This ensures that the limited planting season can be extended by at least two months.

## BROADLEAVES

SPECIES	SIZE IN CM	PRICE PER 100
